Hi, Eugene – Would you mind weighing in on this latest round of comments? As the permit writer, I think your interpretation (regarding whether these suggested changes comport with the permit requirements) is the most important.

As the compliance officer here, my main concerns are that 1) Sandra doesn't spend time inserting comments that should be inserted by the permittee, 2) any revisions don't eliminate necessary monitoring or reporting requirements from the form, and 3) revisions don't making tracking compliance more difficult in any way.

Are you in and available to review this?

Thanks,
Kristine

Kristine,

FYI - I've got more revisions from Marina Robertson on BETA Offshore. Most of these are "comment" related. I won't be back in the office till Jan. 6th. I will make the changes then, but just want to keep you in the loop of what's going on.

Hi Sandra,

There are a few more comments regarding the last revision of Beta's DMRs.

If you get a chance, please take a look at them. Sorry for all the back & forth with this process.

Also, check for the spelling of "occurrence"

Thanks and Happy Holidays.

Hi Marina,

Most of the previously requested changes to the EPA DMRs were made by Sandra.

Attached are the comments that were missed and not incorporated into the most recent version of the DMRs. You can review and then send to Sandra.

Thanks and Merry Christmas.
